About Saladmaster

Saladmaster is a global organization with integrity, quality, and innovation that spans more than 70 years. Saladmaster’s history of growth and expansion extends to the original founding of the company in 1946 by Harry Lemmons, whose vision was for everyone in the world to experience Saladmaster. Today, the privately owned company is headquartered in Fort Worth, Texas with product distribution in more than 45 countries through Independent Authorized Dealers.

Saladmaster is in the business of making life better. The Saladmaster opportunity has helped people around the world discover extra income, a rewarding career and a more satisfying, healthy lifestyle. They empower people with equipment, knowledge, support and training, enabling them to achieve incredible transformations in life. Saladmaster’s state-of-the-art 316Ti Stainless Steel with Titanium cookware is manufactured in the USA and produced with the highest quality of steel. Saladmaster delivers on every product promise they make by maintaining the quality and integrity of their cookware through rigorous testing using the latest technology and industry advancement, and this quality is backed by a Limited Lifetime Warranty.

Saladmaster’s mission is to utilize cooking to inspire the world to eat better, live better and achieve the life they desire. And they are dedicated to doing just that. For example, Saladmaster is a proud sponsor of the Physicians Committee for Responsible Medicine (PCRM), a nonprofit organization that promotes preventive medicine, conducts clinical research and encourages high research standards. In addition, in early 2015, Saladmaster initiated a ‘partnership for change’ with Christian Aid to address the adverse health, livelihood and environmental impacts of solid fuel in more than half of the world’s population, and the development of Improved Cook Stoves (ICS). Use of ICS has been shown to improve cooking efficiency when compared with traditional cooking methods, reducing the quantity of cooking fuel required and time expended in collecting such fuels. Consequently, this delivers the potential to improve health, increase household income and benefit the environment and global climate.

Saladmaster’s core values of family, innovation, faith, community, integrity, education and quality define the company. Saladmaster is a proud member of the Direct Selling Association (DSA) and is one of the longest operating companies in the direct sales industry.
